

Llangattock Green Valleys

Our friends at CEW and TGV have asked us to reach out to our community and share this survey, please take a few minutes and help guide the future of electric vehicles in Wales. And feel free to share with your friends and family.

[Community Energy Wales](#) and local partner [The Green Valleys](#) CIC are aiming to locate car-share clubs in two areas: Brecon and Crickhowell. To help with our Lottery grant application, we need to gauge the interest and need for a car club in your area. You can help shape the car club set-up and its reach by completing the following survey. We want to ensure we develop this project to suit the local transport needs.

Thank you for taking the time to do this, it should take no more than 5 minutes.
