

HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
My relative (who has dementia is often with us)		It was fantastic during the last lockdown. They boys loved the freedom to run and play and see others (from a distance)	The boys love the play equipment, mainly the climbing frame and swings. They ride their bikes on the old tennis courts.	Swings are great, go really high. Spring riders used mainly by toddlers as climbing frame too big for them. How about a roundabout that is disability friendly?	
Use it to walk to the allotments	Use it to access the allotments				
					Facilities to encourage older people to use the Park would be good.
					Giant slide - as big as possible + crash pad. Trampoline. Swimming Pool
		Was a lifeline for kids play in lockdown. Lots of space to spread out!			
					Orchard and Woodland Walk
					Keep it simple and as natural as possible to blend in with surroundings
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
		Social distancing has caused me to stay away			I think that the play equipment is about right . Swings are the most popular and often oversubscribed . The zip wire isn't easy for the children to use . It needs a higher launchpad. Tennis court on existing site would be my first choice - could be used by all ages, encourage sport and the one in llangynidir is well used. The facilities are pretty good as they are and it is a small space . It has a lovely open aspect and being overly ambitious about further development could spoil it.
	Can access surrounding area and enjoy walking. Use the Beechwood more.				

		Used for cycle practice and playing on the equipment with my 4yr old			Space for outdoor activities (such as bike riding, skateboarding) would in my mind be more beneficial than an arboretum or orchard, given the park is surrounded by woodlands anyway...
	My children have grown up				
					Could the area in front of the football wall be non-grass so that it could be used for tennis practice? My son is regularly told by his tennis club coach to practice against a wall but we don't have a wall without windows that he could use, and there's nothing suitable available in the local area
	Lacks parking				
					I consider it unnecessary for dogs to be allowed in the park when the beechwood and other walking areas are available.
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
		Park has been invaluable to us as a family.		My children use all the play equipment	Though it would be nice to have an area to walk dogs, I would not like to see them run free in the park
Access to the allotments and walking through with the dog on a lead.	Doesn't encourage access through with dogs on keafs			None	Chess tables, tennis nets, new large and small climbing frames. A secure infant:toddler play area. Teen/older play equipment outside of a secure area. Permission for dogs on leads. A natural play area, security cameras, gazebos with planting for use during community events
					Toddler play area. Would like to be able to take dog with kids. Understand if he would have to be outside play areas. Ensure basketball hoop has a net
	Only visit when I am in Llangattock - seeing family.	Because of covid restrictions have not been able to visit often		Dont really use the playground area	
				None	
		I have been shielding		None	Straightforward tarmac pathways and an easy access entrance for Zimmer frames and wheelchairs
					better signage on park "rules" - parking needs to be addressed - benches for picnics - exercise play equipment for adults/disabled
	Too Busy (sadly)				A couple of simple summer events to draw people into the Park to promote it locally anyway.
		lockdown			
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
		The recreation ground has been a bit of a lifesaver during the pandemic. It has allowed children much needed opportunities to socialise and burn of energy. It has also allowed adults to have socially distanced contact which is so important during a time when			

					Dog mess a huge problem, the beechwood is close by to meet this requirement rather than encourage into the park area
					Wildflower area, orchard, peaceful space would be better in the Beechwood.
	We would use if we were looking after grandchildren		We would use these facilities if we were caring for grandchildren		
				These are the best type of swing. Please keep excellent seesaw. Climbing frame design is great also, better than other local ones.	So many places to walk dogs here, it seems unnecessary to cater for dogs here. Lack of dog/mess is very attractive feature of this park.
		Shouldn't have been closed during pandemic		Please keep all the equipment presently there. It is all great.	Really against dog walking area. Plenty of other places for dog walking - not necessary here.
		N/a		N/a	Walking or running track for fitness
		Due to Covid restrictions			
		Because of covid restrictions		All good	
		Due to lockdown	Forest area		
Occasionally when family visit	Dogs not allowed				
	Always thought it was a Children's Playground.				Outdoor table tennis tables
			Views the ancient monument	.	
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
Lockdown Dependent			Viewing ancient monument/burial chamber		Dogs: Play parks and dog walks don't mix; risk of taxacariosis. Not against aboretum but there is a woodland next door to the park and lot of local fruit trees. Covered area might be good but would give a more suburban built feel to the parl. Any opreoijectc should respect the fact that the park holds and important ancient monument.
	We moved to Llangatock during Covid.				
		Earlier on in first lockdown we were surprised to find a class from the school using the equipment without any precautions! ie sanitisers			
More recently I have walked in that area alone, but also when my grandchildren visit			Playground and zipwire when my grandchildren visit	All of the equipment when grandchildren visit. 4-5 times a year. Soon to be more regularly (they will be moving nearer).	Dog walking has to be separate or NOT AT ALL !!
				.	I'd really like to see a water play area of some sort

	My child is too old now, but I used it a lot when she was little				
		nervous about social distancing		Zipwire	
		Make use of the outdoor spaces we have available to us			
		Have been shielding			Access to fresh drinking water
	Use toilet facilities when working in the allotments - they are essential.				very much in favour of things to get children out in the fresh air
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
			Looking at fungi presently near the zip wire	.	
	A shelter would be good so people can sit and watch activities in the park		Not aware of Memorial Garden	None	Brass band concerts at weekends. A meeting place for older people at certain times.
			Forest area		
					Outside exercise equipment would be good, for children and adults.
	Live quite a bit away, so we go when we visit grandparents				
Very rarely with younger children hen they visit.	Answered "occasionally" in Q3, but completed this box as generally the park juts has a lack of appeal for us.		Walk round/through the park to the beech wood.	None regularly	"Like" the Wheelchair Access Path, but not sure why combined with the trim trail/exercise equipment.

HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
	Far to travel				
		Unable to use it with grandchildren due to Covid		Zipwire is very popular but abused by inconsiderate adults	Enclosed meeting areas are often used by unruly teenagers and could cause problems
Walker			Beechwood		
		We are using it more now we can drive to places to exercise. We weren't using it during lockdown as we can't walk there.			Filling in on behalf of my two children and nephew, aged 15, 15 and 12.
		No visitors to share it with		N/A	
		Family not able to visit		My grandchildren enjoy swings etc. I used them when I was young!	
		More people are using it and not socially distancing			
	When I exercise it wis with my dog and it is not allowed in the recreation ground			N/A	
I visit as a councillor to work on the Memorial Garden		I have been less able to visit with the grandchildren because of the pandemic		N/A	There needs to be additional play equipment for younger children. They and their parens /grandparents are the b
					Put tennis court back (reinstate) maybe a multiuser area (basketball) tennis etc. Also a cycle rack/shed to lock bikes when visiting the park.
	As an adult in the older age group I go alone or with other adults. The park tends to cater ,mainly for children/young people at the moment though there have been recent changes.	Have been with grandchildren when the park was open. Also interested in trees so have walked around to identify different species.			I like dogs and to see them exercised but there are so many other places for dogs to be exercised in the vicinity and range risk to health and hazards from fouling in the park with a big emphasis on childeens facilities seems contradictory in this context.
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
					Sadly it will always be the minority who let others down with including dogs. No dog area.

	Another park nearby but took children recently and they loved the zip wire so will return.				Great ideas.
					Bike track great idea but we love the area of hardstanding for playing ball games, especially when wet. So would prefer that to be preserved/enhanced.
				N/A	
Disabled father is unable to access the toilet. No paths suitable for disabled	2 year old uses park facilities, 16 year old uses zip wire, 83 year old would like skate/bike park	My son finds social distancing with a toddler difficult. My son has rarely been allowed to mix with freinds. Lack of facilities for a 16 year-old			My family consists of a toddler, a 16 year old boy and a disabled father with scooter. This reflects all of their desires. I would love a sensory area to meet many differing needs for wellbeing generally but for disabled people with sensory loss including dementia. Free running course as well.
				N/A	Before any of this is done, has anyone thought about where all the people will park? Park Drive is a nightmare at the best of times, especially with the pub as well.
have just moved back into Wales but completely new to	Just moved to area	Just moved to the area	N/A	N/A	Having just moved from Canterbury, where there has been quite a recent redesign of facilities, I noticed that the outdoor exercise bars and other equipment was well used by teenagers and university students
		Not applicable		Not applicable	
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
With visiting youngsters				.	Meeting area not on the tarmac area which should be kept as a tennis or short tennis facility which can be used by all age groups . Cycle track on the perimeter not the tarmac
					I strongly believe that there are enough walking facilities around our area to walk dogs. Unfortunately not everyone picks up their dog's mess which would not be fair on others enjoying the grounds.
				.	Car park area needed
	When my children were small we used the park weekly and often met up with other parents for picnics. Now I don't have time or inclination.	Haven't used it during the pandemic		Used all the play park equipment when children were little.	My kids would have loved a skate ramp
	Usually walk elsewhere eg Beechwood			.	
		Grandchildren not allowed to visit			
			If the paths were improved, I would use my buggy to visit for fresh air and woodland tracks.	.	
				.	
Grandchildren when visiting	.	Our children grew up and moved away	When goals in place we played football and friendly matches		
	Dogs aren't allowed -				
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS

		I have not had as much contact with the children during the pandemic	Where is the memorial garden?		
Sometimes alone sometimes with others		Member of community council and visiting is part of my remit. I do also enjoy the recreation ground for what it offers.	Everything due to being on the council.	Seating mainly due to age	
				my grandkids use the equipment	
		just moved to the area			
				Tennis court for bikes and ball games	
					Would love to see a trampoline dug into the ground like Bailey park has
	It just hadn't occurred to me to use it before it became a topic ... I tend to go for longer walks rather than using parks. So there				While I do like the ideas I ticked, it's unlikely I'd be using them that much in the future. So what's neutral for me might be much more important overall?
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
					no dogs, children and dogs do not mix, my children are afraid and have been attacked by dogs, they need to feel safe in a play environment, we have beech wood nd the canal for dogs leave the park alone.
		Grandchildren not visiting because of COVID			How about a permanent table tennis table?
	It would suit more people if there was a path around perimeter where you could walk a dog on a lead			Na	

		We have used it much more as a safe place to play & walk (no dogs, dog mess) toilets and meeting place.	The kids love to play around the burial mound: collecting acorns and playing with them, and at the old oak stump: climbing collecting stones, acorns and feathers and placing them inside. They like to run up & down, exploring tump and some climb the oak tree.	Oak tree stump & burial mound, cycling on tennis court & practicing bike riding on tarmac. It is a brilliant space for learners!	Llangattock has many areas for dogs (canal, globe fields, beech wood,etc) whilst most dog owners are respectful of clearing up after their dog & keeping them on a lead, a few are not. Dog faeces is very dangerous and as most will know, toddlers are a magnet, not to mention the hazard of removing mess from wheelchairs and buggies. The park has to be a destination to relax - some dogs aren't child friendly and some children terrified of dogs. My daughter wouldn't be able to play in a park if she knew dogs would be there. Parents with dogs respect and understand the need to keep the park dog free.
With my mates (12-15) or family	Quite far away and doesn't have facilities that appeal to me	During the pandemic I have used it less than before			Could build a pump track which is suited for all levels of skill same with trails that have jumps and some features
		Reduced family visits			Paddling pool or splash fountain for summer days would be great
					Tennis court
	Pop in when taking a walk				Would like to see something in the area for teenagers
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
				None	
					There's a severe lack of space for young adults in the area... basketball/tennis courts, skate areas, etc - would be incredibly useful and beneficial. As would undercover seating areas. In tow there should be more bins further back on the field.
		We visited every day before the pandemic but I would say we visit twice a day some days now. The open space is great, the play equipment is also really useful and my boys love going			I don't think dogs should be allowed in the park (unless guide dogs). There is a big issue with dog mess in the area. Some People do not pick up after their dogs. The poo will get on pram wheels/wheelchair wheels, shoes, kids fall it it etc. There is a large wooded area beside the park that dog owners can use
When family with children visit	Not many seating areas e.g. benches			Not used regularly	A village hall would be great and would generate income too from various clubs using the building. We need a 'heart' to the village and the addition of this type of building in addition to the other facilities at the park would very much make this the centre that villagers can come together in all weathers.
HOW YOU USE THE PARK	IF DON'T USE IT, WHY NOT?	USE DURING PANDEMIC	WAYS YOU USE IT	WHAT EQUIPMENT?	COMMENTS ON SUGGESTED IMPROVEMENTS
		Parks and green spaces have been a lifeline with very active small children at home so much in the lockdowns. Also allowed them some safe/fresh air contact with other children when there were other people at the park. During lockdown we visited several times a week.
